문제1

```
for (let i=0; i<10; i++) {  
  let s = "";  
  for (let j=0; j<i+1; j++) {  
    s += '*';  
  }  
  
  console.log(s);  
}
```

A terminal window titled "leekh@nothing:~/Desktop — 82X15" showing the execution of a Node.js script. The prompt is "~ /Desktop via v18.2.0" and the command is "→ node sample.js". The output is a 10x10 grid of asterisks, with each line containing an increasing number of asterisks from 1 to 10. The terminal status bar at the bottom shows "28%", "31 GB", and "8/02 11:33 AM".

```
~ /Desktop via v18.2.0  
→ node sample.js  
*
